Subject: FD 36284, Coalition Comments on DEIS

Hi Josh,

On behalf of the Coalition, I am writing to withdraw from OEA's consideration the Coalition's previously submitted comments on the topic of floodplains submitted on February 12, 2021 on page 4 as comments on the DEIS.

The Coalition's intent regarding culverts and bridges as provided in its earlier November 25, 2019 response to OEA's information request was that "The top invert of culverts and bottom soffits of bridges will be designed to clear the predicted 50-year flood event water elevation without causing a backwater increase." The Coalition's intent has not changed and for sake of clarity, the Coalition is reaffirming its earlier November 25, 2019 response.

Please let me know if you have any questions.

Kathryn
